

280-RICR-30-10-14

TITLE 280 - DEPARTMENT OF REVENUE

CHAPTER 30 - DIVISION OF MOTOR VEHICLES

SUBCHAPTER 10 - REGISTRATION

PART 14 - ISSUANCE OF YEAR OF MANUFACTURE LICENSE PLATES

14.1 Authority

This regulation is promulgated pursuant to the authority granted in R.I. General Laws §§ 31-1-3(a)(3) and 31-2-4.

14.2 Definitions

- A. "Administrator" means the Administrator of the Division of Motor Vehicles, or his or her designee.
- B. "Eligible Vehicle" means any vehicle over 25 years of age, based on model year, that is used in exhibitions, club activities, parades, and other functions of public interest, or used for limited enjoyment and purposes other than the previously mentioned activities, but may not be used primarily for the transportation of passengers or goods over any public highway.
- C. "Year of Manufacture Plate" or "YOM Plate" means a registration plate, or an exact replica thereof, issued by the Rhode Island Division of Motor Vehicles in the same year as the model year of the vehicle to which it is to be registered.
- D. "Replica" means an exact copy or reproduction of a registration plate matching material, dimensions, embossing, coloring, lettering and style of a plate issued by the Division of Motor Vehicles in the year for which it purports to represent.
- E. "Dual Register" means that a vehicle is registered with two sets of registration plates: a primary plate, and a secondary plate.
- F. "Primary Plate" is the current registration certificate and license plate issued by the Division of Motor Vehicles that serves as the main registration for the vehicle as required by law for the vehicle type.
- G. "Secondary Plate" is the Year of Manufacture plate.
- H. "YOM" is an abbreviation for Year of Manufacture.
- I. "YOM Use" means the model years of vehicle for which a specific plate can be used.

- J. "Tab" is a square marker made of metal which was affixed to license plates in order to indicate the expiration date of the plate. Tabs were not utilized from the year 1962 onward. Any tab which is affixed to a YOM plate must correspond to the model year of the vehicle.
- K. "Sticker" is a flexible vinyl marker which is affixed to license plates in order to indicate the expiration date of the plate. Any sticker which is affixed to a YOM plate must correspond to the model year of the vehicle.

14.3 Purpose

The purpose of this Part is to enable the Division of Motor Vehicles to issue Year of Manufacture registrations for vehicles 25 years old and older.

14.4 Applicability

This Part applies to each application for Year Of Manufacture Plates.

14.5 Administrative Policies

A. Registration Requirements

1. YOM plates from only the following plate types will be considered: Passenger, Commercial, Combination, Antique, Motorcycle, Camper, Suburban, and Veteran.
 - a. Veteran and military types of plates would still require the registrant to qualify for use of that plate type.
2. All YOM registrations must be dual register.
 - a. All YOM plates will be "secondary registrations."
3. The primary plate for the vehicle does not need to be an Antique Plate.
4. If the primary plate (whether antique or other type) were to expire, the YOM registration would be deemed inactive regardless of its expiration date. The primary plate must be active in order for the vehicle to be considered validly registered.
5. The primary registration must be provided to the DMV for confirmation that it is valid.
6. An applicant may not reserve a YOM plate unless the vehicle is an eligible vehicle which is already registered with a primary plate.
7. Only one (1) YOM plate is required. Front and rear plates are not mandatory, however, if a registrant has only one YOM plate, it shall be

displayed on the REAR of the vehicle. The primary plate must be displayed on, or carried in the vehicle, and available to be furnished to law enforcement at all times.

8. Two registration certificates must be carried in the vehicle; one for the YOM and one for the primary plate. Both registration certificates must be furnished to law enforcement, or other government officials upon demand.
9. When traveling outside of RI, the primary plates must be the plates displayed on the vehicle.
10. If the vehicle requires a biannual safety and emissions inspection (due to the primary plate being something other than Antique), the primary plates must be displayed at the time of inspection.

B. Plate Requirements

1. All YOM plates are subject to approval by the Administrator or his/her designee.
2. The plate must be physically presented at the RIDMV for inspection and final approval.
3. A YOM plate must be clearly legible, in generally good repair and its letters and/or numbers must be unaltered. The plate must meet or exceed minimum visibility requirements as set by the Safety and Emissions Office and law enforcement. The plate must be clearly visible in accordance with current Safety and Emissions license plate standards.
4. Reconditioned plates are acceptable, provided that they comply with these regulations.
5. Only Rhode Island plates shall be permitted.
6. Acceptable YOM plates include original, authentic plates which were issued by the Division of Motor Vehicles during the calendar year of the model of the vehicle, or replicas of authentic plates issued and/or manufactured as such.
 - a. Please refer to a guidance document issued by the DMV, titled "Year of Manufacture Plate Design Guide," for plate specifications and interchangeability.
7. The YOM plate type must correspond to the type of vehicle to which it is to be affixed. (e.g., a YOM plate that states "commercial" or "Comm" on it cannot be used on a passenger vehicle.)

8. No duplicates of any particular sequence of numbers or letters shall be permitted, regardless of the year of the YOM plate. Once a number/letter sequence has been registered as a YOM plate, the same number/letter sequence cannot be used again no matter the year of the plate. YOM is its own plate type, and sequencing will not delineate the year of the plate.
9. Sequencing will be on a first come, first served basis.
10. There will be no "preferred" YOM plates.
11. No "courtesy" plates as defined in R.I.G.L. § 31-3-17.1 shall be permitted.
12. Validation stickers, besides the original sticker showing the year of manufacture, will NOT be required on these plates. The DMV will not issue new validation stickers for these plates upon renewal.
13. Tabs and stickers can either be authentic (issued and/or manufactured under the auspices of the RI DMV during the calendar year of the model of the vehicle) OR they can be an "replica" of same. The customer will be responsible for obtaining the stickers and/or tabs. When the plate is approved for registration, the stickers or tabs must be properly affixed to the plate.

C. Fees

1. There shall be no fee for applying for approval for a YOM plate.
2. Upon approval of the physical plate, fees would be identical to those of antique registrations and renewals.
