My submission is sample.
Let us save some money at the same time.
Please consider retaining the current wave plate design. I spent half the year in Florida
and the RI plate stands out nicely.
Also consider removing the requirement for a front plate, as in most southern states.

Rhode Island 123-456 Ocean State

I don't really have an artistic design per se, but just a quick idea about a plate. Perhaps one can be designed to reflect a number of the cultures & features that Rhode Island has to offer. For example, have one that brings a tribute to the Italian, Spanish or Portuguese cultures across the state. Or, one that would include a design that brings out the best of Providence Waterfire or the Bristol 4th of July parade? And why stop at only one design?! Perhaps the new vehicle owner could select from several different plate design options depending on how they would best want to promote the aforementioned (and others not mentioned) ideas on their vehicles?

Or, maybe even a slogan at the bottom of the plate where it says: "The Rhode to Success Begins Here".

Design Inspiration:

HOPE — using our uplifting state motto seems timely in our world full of coronavirus, political divide, racial injustice, etc. I chose to use the gold from our state flag to support the message of hope.

STAR — the 13-point star is reflective of the 13 stars on the RI State Flag which represent the original 13 colonies and Rhode Island's status as the 13th state to ratify the Constitution.
