98001 - 100000	\$321.00	\$1,284.00	\$20.00

ELECTRIC & HYBRID VEHICLE REGISTRATION FEES

- Battery Electric Vehicles (BEV): \$200 per year
- Plug-in Hybrid Electric Vehicles (PHEV): \$100 per year
- **Hybrid Vehicles (non-plug-in): \$50 per year

***This includes "mild hybrid" vehicles. A mild hybrid vehicle has a small electric motor that assists the gasoline engine to improve fuel efficiency. It cannot be driven on electric power alone and does not need to be plugged in to charge. If you're unsure whether a vehicle is a mild hybrid, a quick Google search can usually provide the answer.*

The DMV system will automatically apply the correct EV/hybrid fee based on vehicle type and statutory definitions.
